

Seceon aiCompliance CMX360

Overview

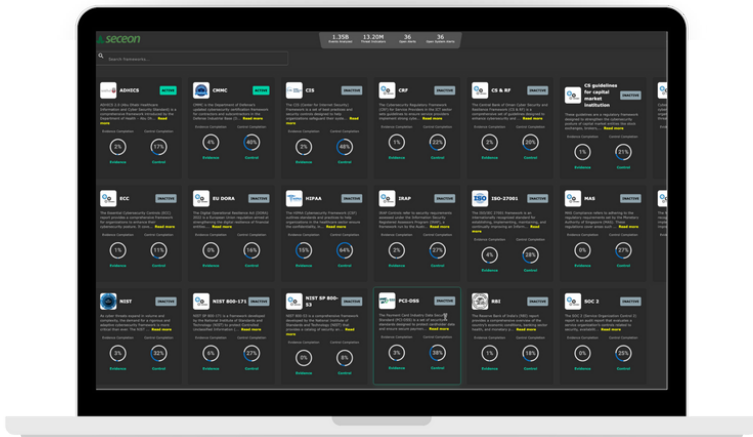

Seceon's **aiCompliance CMX360™** redefines Governance, Risk, and Compliance (GRC) with a security-native architecture.

It leverages Seceon's Open Threat Management (OTM) platform to automatically transform operational security telemetry into auditable evidence, providing continuous compliance across industries and regions.

The platform delivers:

- Continuous mapping of controls to 20+ frameworks
- AI-driven correlation of security events and compliance controls
- Automated evidence collection and validation
- Real-time readiness scoring and reporting
- Audit-friendly reports for regulatory certification

CMX360™ supports MSPs, MSSPs, and enterprises in meeting global and regional compliance mandates without rebuilding or replicating controls.

aiCompliance CMX360 Dashboard

Highlights

ACHIEVE 60-80% COMPLIANCE READINESS INSTANTLY

Leverage years of accumulated SIEM data and telemetry to auto-complete up to 80% of framework requirements from day one.

SECURITY-FIRST COMPLIANCE BUILT ON REAL POSTURE

CMX360™ builds compliance evidence directly from live security posture- eliminating the trade-off between being secure and being compliant.

SIMPLIFY AUDITS & REDUCE FINDINGS

Powered by SERA AI, the platform achieves 95% audit prediction accuracy, cutting audit timelines by up to 75% and findings by 65%.

EFFORTLESS INTEGRATION & ZERO OVERHEAD

Built on Seceon aiSIEM, CMX360™ requires no additional hardware or deployment. Activate instantly and gain unified compliance visibility.

CONTINUOUS COMPLIANCE DASHBOARDS

Track real-time framework readiness, control coverage, and evidence collection across all frameworks simultaneously.

Key Capabilities

- **Automated Evidence Validation:** AI-driven evidence correlation with 95% audit prediction accuracy.
- **Multi-Framework Monitoring:** Simultaneous compliance tracking across 20+ frameworks.
- **SERA AI Engine:** Advanced analytics transforming security posture into compliance proof.
- **Continuous Readiness:** Live dashboards, control coverage visualization, and readiness scores.
- **No-Code Framework Expansion:** Easily extend or customize frameworks for sector-specific needs.
- **Zero Infrastructure Cost:** Built directly into Seceon aiSIEM architecture.

Comprehensive Global Framework Coverage

Global Frameworks	Regional Standards
SOC 2, ISO 27001, HIPAA, NIST CSF, NIST 800-171, CMMC 2.0, PCI DSS, GDPR, CIS Controls, DORA, NIS 2	IRAP (Australia), MAS (Singapore), RBI (India), SAMA & NCA (Saudi Arabia), Cyber Essentials (UK)

Proven Customer Impact

Organizations across financial services, healthcare, government, and education sectors report dramatic improvements:

Metric	Improvement
Evidence Collection	90% faster
Audit Completion	75% faster
Certification Timelines	60% faster
Audit Findings	65% fewer
SOC 2 Readiness	6-9 months → 2-3 weeks

"CMX360's ability to instantly leverage existing security data means we can now help customers achieve SOC 2 readiness in weeks instead of months."

- Joshua Skeens, CEO, Logically (MSSP)

Market Validation

- **GRC Market Growth:** +\$44.22B from 2025-2029 (14.2% CAGR) - *Technavio*
- **70% of organizations with siloed data** faced security breaches - *IT Compliance Benchmark 2025*
- **aiCompliance CMX360™** eliminates silos with unified, telemetry-based compliance.

Business Advantages for MSPs and MSSPs

- Deliver compliance-as-a-service with existing aiSIEM investments.
- Expand offerings without additional infrastructure or staffing.
- Enhance customer trust and retention with real-time compliance proof.
- Offer multi-framework audit readiness as a high-margin service.
- Achieve continuous security and compliance synergy at scale.

Availability

aiCompliance CMX360™ is **immediately available** as an **add-on module** for all existing Seceon aiSIEM customers. Continuous framework expansion and regional standard support will continue through 2025 and beyond.

About Seceon

Seceon simplifies cybersecurity for MSPs, MSSPs, and IT teams by reducing risk and complexity. Our AI and ML-powered aiSIEM and aiXDR platform provides comprehensive threat detection and response. By integrating data from logs, identity management, networks, endpoints, clouds, and applications, we deliver real-time, accurate alerts and automated remediation. Trusted by over 700 partners, Seceon supports more than 9,000 clients with efficient, high-margin security services and continuous compliance.
